RUFUS KING & WM. H. WATSON, PROPRIETORS. Fader the Name and Firm of Raffus King & Co. MILWAUKEE:

Friday Morning. July 3.

The Fourth. We publish again to-day the Order of the day for to-morrow. The skies cleared finely last night, and there was good prospect of the clear weather which we usually have on the 4th of July. If such shall prove to be the case, our city will be overrun with visitors, who will be gratified with attending such a celebration of the National Anniversary as we have never before had in Milwankee. The various Companies of Troops-the Firemen-the Draymon-the Boat Clubs-the numerous Civic Societies-are

#### A Cry of Fraud.

The sham Democracy being badly boaten is the late election in Minnesota, their organs throughout the country, the News included of throughout the country, the New included of are emplored and capital to the amount of SS.

And the Mayer, commission Agent, of course, are setting up the cry of fraud. The St.

Montreal, states—The fire occurred at 5 t.M., yesterday. The "Montreal" had left Quebec at 4 p.v. The fire broke out in the main saloon, barley, 2,140,927 bushels of rye, 50,603 bushels in midships, immediately opposite the boller-to-detection, the shameless feateds by which the large delegation from that district was returned— in pages of moisses.

Smoke was first seen to issue from one of the state-rooms; it was very dense—so dense. large delegation from that district was returnedall democrats-does not see fit to make much ado in the way of charging fraud upon the other party, but leaves it to unscrupulous papers outside of the territory to do the work of accounting for the defeat.

It is no use to cry about it, gentlemen. The Republicans in Minnesota have beaten you handsomely, without half trying ; and the secre of it lies in the fact that the bulk of the popula tion of the territory consists of intelligent emigrants from Northern States, particularly from Republican New England; and intelligent Gor mans, Norwegians, &c., with whom Liberty is a principle, and who have gone out to the farming hads of Minnesota, uncontaminated by the sham democratic demagogues of the cities.

#### priscourl—The Cubernatorial Cauras: —A Blocat.

The spirit in which the subject of Slavery and Emancipation is discussed in Missouri, is a sure guarantee of the early success of the friends of fice white labor. The discussion itself tends to wear out and drive out Slavery. The late victor ries, Congressional and Municipal, in St. Louis are but precursors of a great and more complete victory in the State.

The Gubernatorial canvass, now going on, ha some remarkable features, as showing how the questions connected with slavery supercede every thing else. Robert M.Stewart, who is the nomi nes of the "National Democrata"--- the sympathis ers with Border Ruffianism, and the regular Buchanan men,-is well-known as having been long connected with the Know Nothing movement is Missouri, while Major Rollins, is the candidate of the "Liberal Domocrats," and is supported by great many of the so-called Americans, because he is with them in opposition to the absolutist of Slavery. Col. Benton is our openly for Mr. Rollins, and the St. Louis Democrat, which is a steady opponent of Know Nothingism, is working hard for him, In fact there is a perfect fusion | Burnet, gradually but surely coming about in Missou i, Polic, of the opponents of Slavery against its friends, St. Croix, just as it has come about in other States. In Massachusetts, the anti-slavery extension men support Mr. Banks despite his alleged "Ameri Chippewa enism." because he is true on the one great is sue; which in Missouri, the National Pro-Siavery Democrats support Mr. Stewart, a Know Nothing, because he is pre-slavery; and the Clark, Emancipation party, made up of all parties, old Mon Whiga, "Liberal Democrats," Free Soilers, and Richland. whigs, "Liberta Denotions," is united in favor Grant,

#### Mormon Titles in Ctub.

It appears that among other methods of regulating their domestic institutions according to the sacred democratic rights defined and secured to them by the Nebrasks bill, the Mormons have sequestored the public lands of the United States, ignored the surveys, and bought and sold the soil, precisely as if they held the same by originroil, precisely as if they held the same by originating to proprietorship. It is a singular fact, to which attention is now first called, that though main building, and two longitudinal, and two to which attention is now first called, that though Utah has been organized for nine years, and has an estimated population of from 20,000 to 75,000. not an acre of land has been hought from God ernment, while in Minnesota, organized at the same time, millions of dellars have been paid into the Treasury by the settlers for the lands which comprise their farms and homesteads. The firstproceeding of the new Territorial Government will be to make the occupants of public land pay for them at established prices, or offer them for sale to other parties.

GENERAL WOOL AND HIS SWORD .- Gen. Wool has at last got the sword voted him by Congress. The Secretary of War writes unively, that on coming into his a flice he found a sword there for the General and sends it forward. How long it would have remained in the War Department if Mr. Davis had continued in office, without his making a sign, may be surmised from the treatmeet which the General had been accustomed to at his hands.

Tae Globe says:

The steamer "Moutreal" was destroyed by fire yesterday, at Cape Rouge, about 12 miles above Quebec, at 5 o'clock. 175 cared by the "Napoleon." Mr. A. Hayes of Montreal is among the number saved. Sixteen bodies taken up drowned, and about 104 alive, the remainder supposed to be lost. Captain and part of the crew saved. She had between 400 and 500 passengers on board. The bodies of sixteen small children were picked up, also those of several adults. The "Napoleon" stayed by the "Montreal" until she was burnt to the water's edge and sank. From the time the "Napoleon" came up until the "Montreal" sank, not more than 20 minutes classed. Nearly all the passengers were from the "John M'Kenzie," from Glasgow, which arrived at Quebec on the 25th inst.

The Captain of the steamer "Napoleon" says that he was 500 yards ahead when he saw the "Monteal" was on fite, and returned. He could not get near the steamer, but leunched a large batteau which they had on board, and boats.—With these they saved 104 passengers, and picked up 16 bodies, principally children.

The fire broke out from the bolier, and spread rapidly to the state rooms, and from the state rooms at the school of the state rooms, and from the state rooms.

From the time that the alarm was given until the time the vessel sank, not more than half an hour had elapsed, and in two minutes the whole essel seemed to be in flames.

Mr. Andrew Hayes, of Montresl, who was a passanger on board, gives the following Mr. Andrew Hayes, Commission Agent,

that in less than five minutes, it was impossible to see acything in the saloon. In ten minutes, the flames filled the saloon, and burst out on both sides. I was in the stern of the vestel when this occurred. I lowered myself down by the side of the vessel, and while I was doing so, I saw one man trying to get a boat oil the uppe deck. He called me to his assistance; he loose ed on it. The flames soon became so intense that I jumped out of the boat into the water, and swam towards mother boat which I saw coming to our resue, but it shot past me, and made for the boat at the side of the "Mon-

The State Land Commissioners give notice of sales of swamp lands in the counties, and at the times and places maned below.

There was no time to look back; the "Mourean" is burnt to the water's edge. The boiler exploded some time after the flames broke out. I heard the "Mourean" had been on fire twice previously during the afternoon of the same day, and that in consequence they had a person to watch. I understand the furnaces were badly protected by mutal sheeting. I heard this from watch. I understand the furnaces were badly tree to be the content by metal sheeting. I heard this from the Captain of the stenner "Napoleon." The seene was appallingly terrific beyond description on bound the "Moutten?" and on the "Napoleon" afterwards. The scenes of distress were most heartrouding. Spalding & Rogers Three Circusses. This extraordinary triple combination which erforms here July 14th and 15th, is causing considera-e sensation all over the Western country. One Circus periodine here say want and form, is easing Consideration all over the Western country. One Circus is pretly sure to create some excitement. It is the popular amusement of America. But these Circusses, all under one Tent, with three sette of Performers, three setts of Clowns, and three Ring and Tick Horses, all in one ring and all for one price of admission, raises a furor. The Perty Horse Band Charlot, driven by one many ror. The Porty Horse Band charles divine by Mille Ag-nes; and all the "Home And Gindungtance" of such an immense concern, attracts everywhere the whole sur-rounding country, "Gonals, room and Danacons" to these exhibitions. But it is said that, after all, in the great tal-cal of the performers does the third merit of this extradinary consolidation consist.

Frank Barry, an equestrian monder, turns backward sometsetts over banners and through paper baloons, on a hare back horse at full speed, (a feat performed by no ther enuestrian in America.) with the certainty and sass that gymnasticts do on the ground. The Man-Monkey, (so called from his resemblance to an Ape,) with all the physical skill of Jocko, bewilders beholders everywhere with astonishment. Bill Lake, the principal Clown, copruless the audience with laughter, from beginning to end. Henry Magilton transfixes the spectators with wonder roury magnious vanishas and gymnostic feats that no body has over nefore even attempted; The Motley Broth-ers are the especial delight of everybody who nees them; Dunbar & Donaldson are a couple of squestrian and gemnastic colebrilies that are much dwelt upon it our exchanges; Mesdames Ormond and Lake, and Millo Agnes are literally showered with praises, while a youthful wonder, little Kate Ormand, is pronounced an equestrienne and danseum of whom the public have rever yet seen an equal. A large troop of Daneing and Perform-ing Horses, seeming to know as much as most folke, are particularly admired, and the entertainment throughout concunced of an order that has never before been witnessed in this region, and what is more important, are entirely usexceptionable. Handreds who have selden or never before visited a Oircus, are found amongst its most delighted pairons; and, altogether, there seems to be a fair prospect that this Oircus will redeem the vocation from the ablequy which has heretofore been some-times east upon it. Our readers will bear in mind this riple o'reas exhibits a week from next Wednesday and . jj8-daw1t

Adram, July 2.

Adram, July 2.

The Court of Appeals, by an Judged Brown and Constock dissenting. The opinion was delivered this A. M. by Judge Denio. It examines the question as to the direct constitutionality of the portion of the district, and the method of appointments adopted in the bill, and declares that there is nothing adverse to the latter—in the constitution admits the time remedy for unwise legislation is provided for in the constitution by the frequent renewal of legislature, there is nothing in the constitution prohibitory to the abolishing of the local police arrangements of the city, by the Legislature, or the remodeling of the force in any manner that the Legislaturescess fit. The judgment of the Supreme Count is sherefore affirmed. The aphinon also says that other points have been argued, but as the judgment confirms the constitutionality of the law, it is not necessary to consider thom.—
Judge Shaukrum also delivered an opinion. He the law, it is not necessary to consider thom.—
Judge Shankrum also delivered an opinion. He
sustoins the constitutionality of the bill on all
points, also goes into a discussion to show that
there was necessity of some reform in the police
arrangements of the city prior to the enactment
of the law, thus justifying the passage of the
bill from motives of public good. The Court
stood six in favor for constitutionality of bill, to
two against, the dissenting Judges being Messars.
Brown and Constock. Judge Brown also dolivered an opinion. He dissents from the opinion
which declares constitutional, and recognize the
division of the city and counties as then existing. which declares constitutional, and recognize the division of the city and counties as then existing, and says although their limits can be altered or modified by agreement, and cities can be consolidated, but the Legislature has no power to join cities and counties into one district for the purpose of police or any other local government.—
He declares that by article 119, Sec. 2, the constitutional method of appointing city and county officers, is distinctly set forth, and be maintains that as regards the police and city officers, the court must cities construct the constitution, that

ona as regards the pointers and cry cheers, the court must either construct the constitution, that local rights and privileges expressly mentioned, and never till now questioned, shall remain to be exercised and enjoyed by the local community or else sanction a constitution which may, and indirectly, can hardly fail to exclude them altogether. The judgement of the Supreme Generalisability therefore be reversed. Judge Constock court must either constent the constantion, tag local rights and privileges expressly mentioned, and never till now questioned, shall remain to be exhibited and enjoyed by the local community or eke sanction a constitution which may, and indirectly, can hardly fail to exclude them altogether. The judgement of the Supreme Court should therefore be reversed. Judge Constock concurs in the opinion of Judge Brown.
